HALCONIQ

Student Trackora

A complete solution designed for schools to automate attendance, ensure student safety, and keep parents and teachers informed in real-time.

Why Schools Need Smart Attendance

Manual roll calls waste valuable teaching time.

Attendance registers are prone to errors and manipulation.

Parents remain unaware of absences until it's too late.

School admins struggle with accurate reporting and record-keeping.

Our Solution

The Smart Attendance System automates attendance using RFID cards.

- Students are marked present the moment they enter school/class.
- Attendance data is synced in real-time to the school database.
- Parents receive instant notifications about their child's presence.

Key Features

◆ Instant Attendance Capture – No roll calls, no delays.

◆ Parent Alerts – SMS/WhatsApp/in -app notifications for late arrivals or absences.

◆ Real-time Dashboard – Instantly monitor attendance by class.

◆ Detailed Reports – Daily, monthly, and custom analytics.

◆ Seamless Integration – Works with your existing School ERP.
